Technology Expectations

- See Technology Expectations

- ACS district policies regarding use of technology are expected to be followed daily.

Course Textbook

The Developing Child

Make-Up Work

- Make-up work is 100% the student's responsibility.

- Students are expected to ask the teacher about make-up work upon returning to class.

Course Description

Lifespan Development builds basic knowledge in human growth and development. The course standards include developmental theory, principles of growth, behavior of children from conception through adolescence, adult development and aging.

Course Requirements

This course will go into detail discussing prenatal development, the birthing process, and postnatal development. I want parents and students to be aware that I feel it is extremely important that the students view a live birth film in order to have an adequate understanding of child development. If you have any questions or concerns, please contact me.

It is also a requirement that the students take home an infant simulation device for a weekend in order to adequately gain insight into their parenting skills. A letter will be sent home with more details about the simulation process and as always if there are questions or concerns please contact me.

Classroom Rules

1. Be Respectful   2. Follow Directions

3. Be Responsible   4. Do not interfere with learning

Consequences

First offense:	Warning
Second offense:	Student-teacher conference
Third offense:	Parent-Teacher Conference
Fourth offense:	Discipline Referral to the office
